HEALTHY BANKING

**Learn how to keep
your money safe from
fraudsters while you
travel this summer:**

- **Unblock your debit/credit cards**
Remember to notify your credit union of your travel plans to ensure your card works wherever you are.
- **Use credit cards** but also carry cash.
- **Plan, plan, plan.** Keep a copy of your credit/debit card numbers and customer service numbers someplace safe so you can report stolen or lost cards immediately.
- **Stay in sight.** Avoid secluded ATM's, use drive-up machines whenever possible.
- **Secure your Stuff.** Losing or having your phone or laptop stolen can give someone access to your financial apps and other personal information. To ensure your safety, password-protect each device.
